COMMUNITY COMMISSION TO END DOMESTIC VIOLENCE

Join the movement to
end the domestic violence epidemic
in Kankakee and Iroquois Counties!

Domestic violence is one of the most prevalent crimes in Kankakee and Iroquois Counties. **Domestic violence is not a family problem; it is everyone's problem.**

Addressing the domestic violence epidemic requires a community-wide response with advocates embedded in the fabric of our society.

The primary purpose of the Community Commission to End Domestic Violence is to **activate the community to join the movement against domestic violence** in order to create safer, stronger neighborhoods.

Commission members will meet monthly to **develop and execute prevention, outreach and training strategies** that will increase domestic violence awareness, connect survivors to Harbor House services, and, ultimately, reduce violence in our communities.
